STATE OF NEBRASKA

DEPARTMENT OF NATURAL RESOURCES

APPROVAL OF APPLICATION A-18881

WATER DIVISION 2-F

BACKGROUND

1. On February 22, 2012, Robert E. and Marvene M. Courtney, landowners/lessors, on behalf of Malcolm D. and Betty M. Hardin, lessees, filed in the Department of Natural Resources (Department) application A-18881 for a Permit to Appropriate Water.

2. On April 30, 2012, Malcolm D. and Betty M. Hardin filed in the Department map number 18120 showing the project proposed under application A-18881.

ORDER

IT IS HEREBY ORDERED that application A-18881 is APPROVED subject to the following limitations and conditions:

1. The source of water is the Missouri River.

2. The water shall be used for the purpose of domestic use.

3. The priority date is February 22, 2012.

4. Map number 18120 indicates the location within which the domestic use may occur.

5. The rate that water may be diverted under appropriation A-18881 shall not exceed 12 gallons per minute.

6. The appropriator must comply with all relevant statutes. The statutes include, but are not limited to, the following:

   A. Notify the Department of any change in ownership or address.

   B. Notify the Department of the name and address of the person responsible for the use of the water appropriation (this may include farm managers, tenants, or relatives that actually apply the water to the approved use).

   C. Obtain approval from the Department prior to taking any action that changes the location of the point of diversion, the location of the place of use, the type of use, or the type of appropriation.

7. The appropriator must comply with the following deadlines:

A. Construction of the diversion works must begin within twelve months of the signing date of this application approval. The appropriator must proceed diligently with the construction unless interrupted by some unavoidable and natural cause.

B. Construction of the project must be completed by two years past the signing date of this application approval.

C. The appropriation is not considered perfected until water has been beneficially applied for the purpose stated in this approval. The water appropriated under A-18881 must be beneficially used by September 1, 2014.

D. After September 1, 2014, a field investigation will be conducted to determine the amount of water used, after which an order of cancellation will be issued for any unused portions of appropriation A-18881.

ADDITIONAL INFORMATION

Failure to comply with all laws and regulations pertaining to surface water appropriations, any orders issued by the Director of the Department of Natural Resources, or the provisions of this Approval may result in the cancellation of the appropriation, temporary closing of the appropriation, administrative penalty, criminal prosecution, or any combination thereof.

Nebraska law provides that failure to use a portion or all of a perfected appropriation for more than five consecutive years may result in cancellation of the appropriation.

This appropriation is not a guarantee that water will be available. Nebraska law gives priority to senior appropriations. This appropriation may be closed if there is insufficient water to satisfy senior appropriations. If in the future you are not able to divert sufficient amounts of water, and if there are junior appropriations upstream, you may call for water by contacting your local field office.
