

STATE OF NEBRASKA

DEPARTMENT OF NATURAL RESOURCES

ORDER GRANTING PETITION VAR-4724 FOR LEAVE TO FILE OR CONSIDER

AN APPLICATION FOR A NEW SURFACE WATER APPROPRIATION WITHIN

A MORATORIUM OR STAY AREA

WATER DIVISION 1-B

BACKGROUND

1. On December 10, 1934, The Department of Roads and Irrigation, now the Department of Natural Resources (Department), approved plan P-ERA1 for Kugler Dam 1171, to be constructed across a tributary to the Republican River in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 32, Township 3 North, Range 31 West of the 6th P.M. in Hitchcock County. No application for a permit to impound water was sought at that time.
2. On July 14, 2004, the Department issued an Order declaring a formal moratorium in the Republican River Basin on the issuance of all new surface water appropriations.
3. On May 30, 2013, Roland Miller, on behalf of Jeannette Miller, John Miller, Karen Miller, and himself (Petitioners), filed petition VAR-4724 in the Department for Leave to File or Consider an Application for a New Surface Water Appropriation within a Moratorium Area (Petition). The draft application and documentation attached to the petition is for a permit to impound approximately 72 acre-feet of water from a tributary to the Republican River in the existing Kugler Dam 1171 located in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 32, Township 3 North, Range 31 West of the 6th P.M. in Hitchcock County for the purpose of water for livestock.
4. Department records of aerial photography dating back to 1993 for this location show this dam and reservoir in existence and impounding water.
5. *Nebraska Revised Statutes* § 46-714(3)(n) allows for new surface water appropriations if the Department grants leave to file an application and subsequently approves a permit for such use.
6. When filing such a petition, a project proponent must offer a clearly stated basis for such request and must offer sufficient good cause shown. *Department of Natural Resources Rules for Surface Water, Title 457 Neb. Admin. Code Chapter 23* lists six circumstances that may be put forward as justification for granting a petition to apply for a permit to impound water, in conjunction with an examination of good cause shown.

CONCLUSIONS

1. Petitioner has shown good cause in that the impoundment has been providing the benefit of water for livestock for many years.
2. Kugler Dam 1171 existed prior to the formal moratorium.
3. Therefore, petition VAR-4724 should be granted and the Petitioner should be allowed to file an application for a permit to impound water.

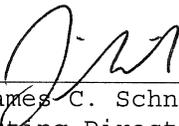

ORDER

IT IS HEREBY ORDERED:

1. Petition VAR-4724 meets the requirement of *Department of Natural Resources Rules of Surface Water, Title 457 Neb. Admin. Code Chapter 23, § 001.04*, and is GRANTED.
2. This Order granting leave to file or consider an application for a new surface water appropriation within a moratorium or stay area pursuant to petition VAR-4724 shall be in effect for one year from the date this order is signed.
3. This decision shall not bind the Director to approve any application to which it relates, or in any way be used as evidence of prejudice for the Director's future decisions concerning the specific approval requirements of such an application.

DEPARTMENT OF NATURAL RESOURCES

April 7, 2015

James C. Schneider, Ph.D.
Acting Director

A copy of this Order was posted on the Department's website. A copy of this Order was provided to the Department's field office in Cambridge, Nebraska. A copy of this Order was mailed on April 7, 2015, to the following:
