

Geographic Area Determined to Have Surface Water Hydrologically Connected to Ground Water for the Purpose of Fully Appropriated Designation

Determination made by the Department of Natural Resources on April 21, 2006

- Hydrologically Connected Surface and Ground Water
- Natural Resources District (NRD) Boundaries
- County Boundaries
- Township Boundaries

This map represents the geographic area within which it has been determined that surface water is hydrologically connected to ground water for the purpose of designating the surface water resources within portions of the Platte River Basin upstream of the Loup River Confluence that are within the Tri-Basin NRD (downstream of the overappropriated area), the Little Blue NRD and the Upper Big Blue NRD as fully appropriated. Additional information regarding the designation can be found in the Order issued by the Department of Natural Resources issued on April 21, 2006.
