Stat. § 46-713(1)(c), shall include in the annual report required to be issued by January 1, 2014, for informational purposes only, a summary of relevant data provided by any interested party concerning the social, economic, and environmental impacts of additional hydrologically connected surface water and groundwater uses on resources that are dependent on streamflow or groundwater levels but are not protected by appropriations or regulations. Anyone wishing to provide relevant data must submit such relevant data by November 1, 2013, to the Department. The address for the Department of Natural Resources is 301 Centennial Mall South, P.O. The Department must complete an evaluation of the expected long-term availability of hydrologically connected water supplies for both existing and new surface water uses and existing and new groundwater uses in each of the state's river basins and shall issue a report that describes the results of the evaluation by January 1, 2014, pursuant to Neb. Rev. Stat. § 46-713 (Reissue 2004). Based on the information reviewed in the evaluation process, the Department shall arrive at a preliminary conclusion for each river basin, subbasin, and reach evaluated as to whether such river basin, subbasin, or reach presently is fully appropriated without the initiation of additional uses.
